

NAWEA

2013 Symposium
Boulder, CO

NORTH AMERICAN WIND ENERGY ACADEMY

Session Speaker

Maureen Hand, Strategic Energy Analysis Center, NREL
Tracking the Cost of Wind Energy

Maureen Hand leads a team of engineers and analysts at NREL exploring current and future costs of wind energy through market data analysis and modeling. She recently led NREL's Renewable Electricity Futures study, a collaborative effort among public and private organizations to investigate the potential for renewable electricity generation in the U.S. Maureen has a Ph.D. in Mechanical Engineering from the University of Colorado and has been at NREL since 1995.
