

NAWEA 2013 Symposium Boulder, CO

NORTH AMERICAN WIND ENERGY ACADEMY

Session Speaker

Thomas Jenkin, NREL

Social cost of carbon and wind

Thomas Jenkin has been senior energy analyst at NREL since 2004 and is located in their Washington DC office. Thomas's work deals mainly with the operation and economics of renewable and conventional generation, including system integration issues and the role of risk and uncertainty, and has written papers and given presentations on a wide range of topics, including energy storage. He has also taught since 2008 as an Adjunct Instructor at Johns Hopkins a course on the science, engineering and economics of different generation technologies. Prior to NREL, Thomas worked for 10 years as a management and economic consultant, mainly to the energy sector (including for Booz Allen and The Brattle Group). Thomas holds a BSc in physics from the University of Bristol, a doctorate (DPhil) in physics from the University of Oxford and an MPPM from the Yale School of Management.
