

NAWEA 2013 Symposium Boulder, CO

NORTH AMERICAN WIND ENERGY ACADEMY

Session Speaker

Paul Medina, Siemens Energy Inc.

Engineering to reduce wind turbine noise

Paul Medina is the manager for the Rotor Development group for Siemens Wind Power in Boulder. He previously worked for 3.5 years as a design engineer for Siemens developing airfoil and blade designs. Prior to working at Siemens Paul worked for a small rocket company developing nozzle designs under DoD SBIR contracts. He is a graduate with a M.S. degree from the University of Wyoming where he performed experimental research with active flow control devices.
