

NAWEA 2013 Symposium Boulder, CO

NORTH AMERICAN WIND ENERGY ACADEMY

Session Speaker

Keegan Moyer, WECC

Interconnection-Wide Transmission Planning Developments in WECC

Keegan Moyer is the Interim Manager of Transmission Expansion Planning at the Western Electricity Coordinating Council (WECC). He is responsible for providing leadership and direction to the WECC Transmission Expansion Planning department and oversees the Transmission Expansion Planning Policy Committee (TEPPC) related activities. The Transmission Expansion Planning department and TEPPC support WECC in promoting and fostering a reliable and efficient bulk electric system in the Western Interconnection by identifying future transmission system needs under a variety of possible energy futures through a robust stakeholder process.

Prior to his current position, Moyer worked as a transmission planning engineer at WECC where he developed production cost model studies and served as staff liaison for numerous stakeholder groups.

Moyer earned both a bachelor's degree in Mechanical Engineering and a master's degree in Engineering and Technology Management from the Colorado School of Mines.
